

The DK2003M Tipsafe Tilt & Turn system has been designed to give ease of use in operation whilst providing a cost effective package to enable the fabricator to remain competitive in todays market.

This FUHR product offers the fabricator the following features as standard:

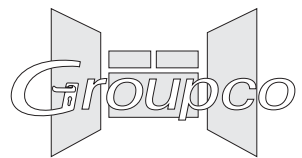

- Centrally pinned for ease of fabrication
- Tilt first as standard
- Adjustable Brass Roller Cams
- Fully adjustable Top Stay with 28mm pull in
- 3D Bottom Hinge offering vertical, lateral & sealing adjustments
- Windows in the size range

280mm - 1520mm Sash Rebate Width

300mm - 2200mm Sash Rebate Height

and up to 100kg can be fabricated using the standard bottom hinge.

130kg is available using a heavy duty bottom hinge

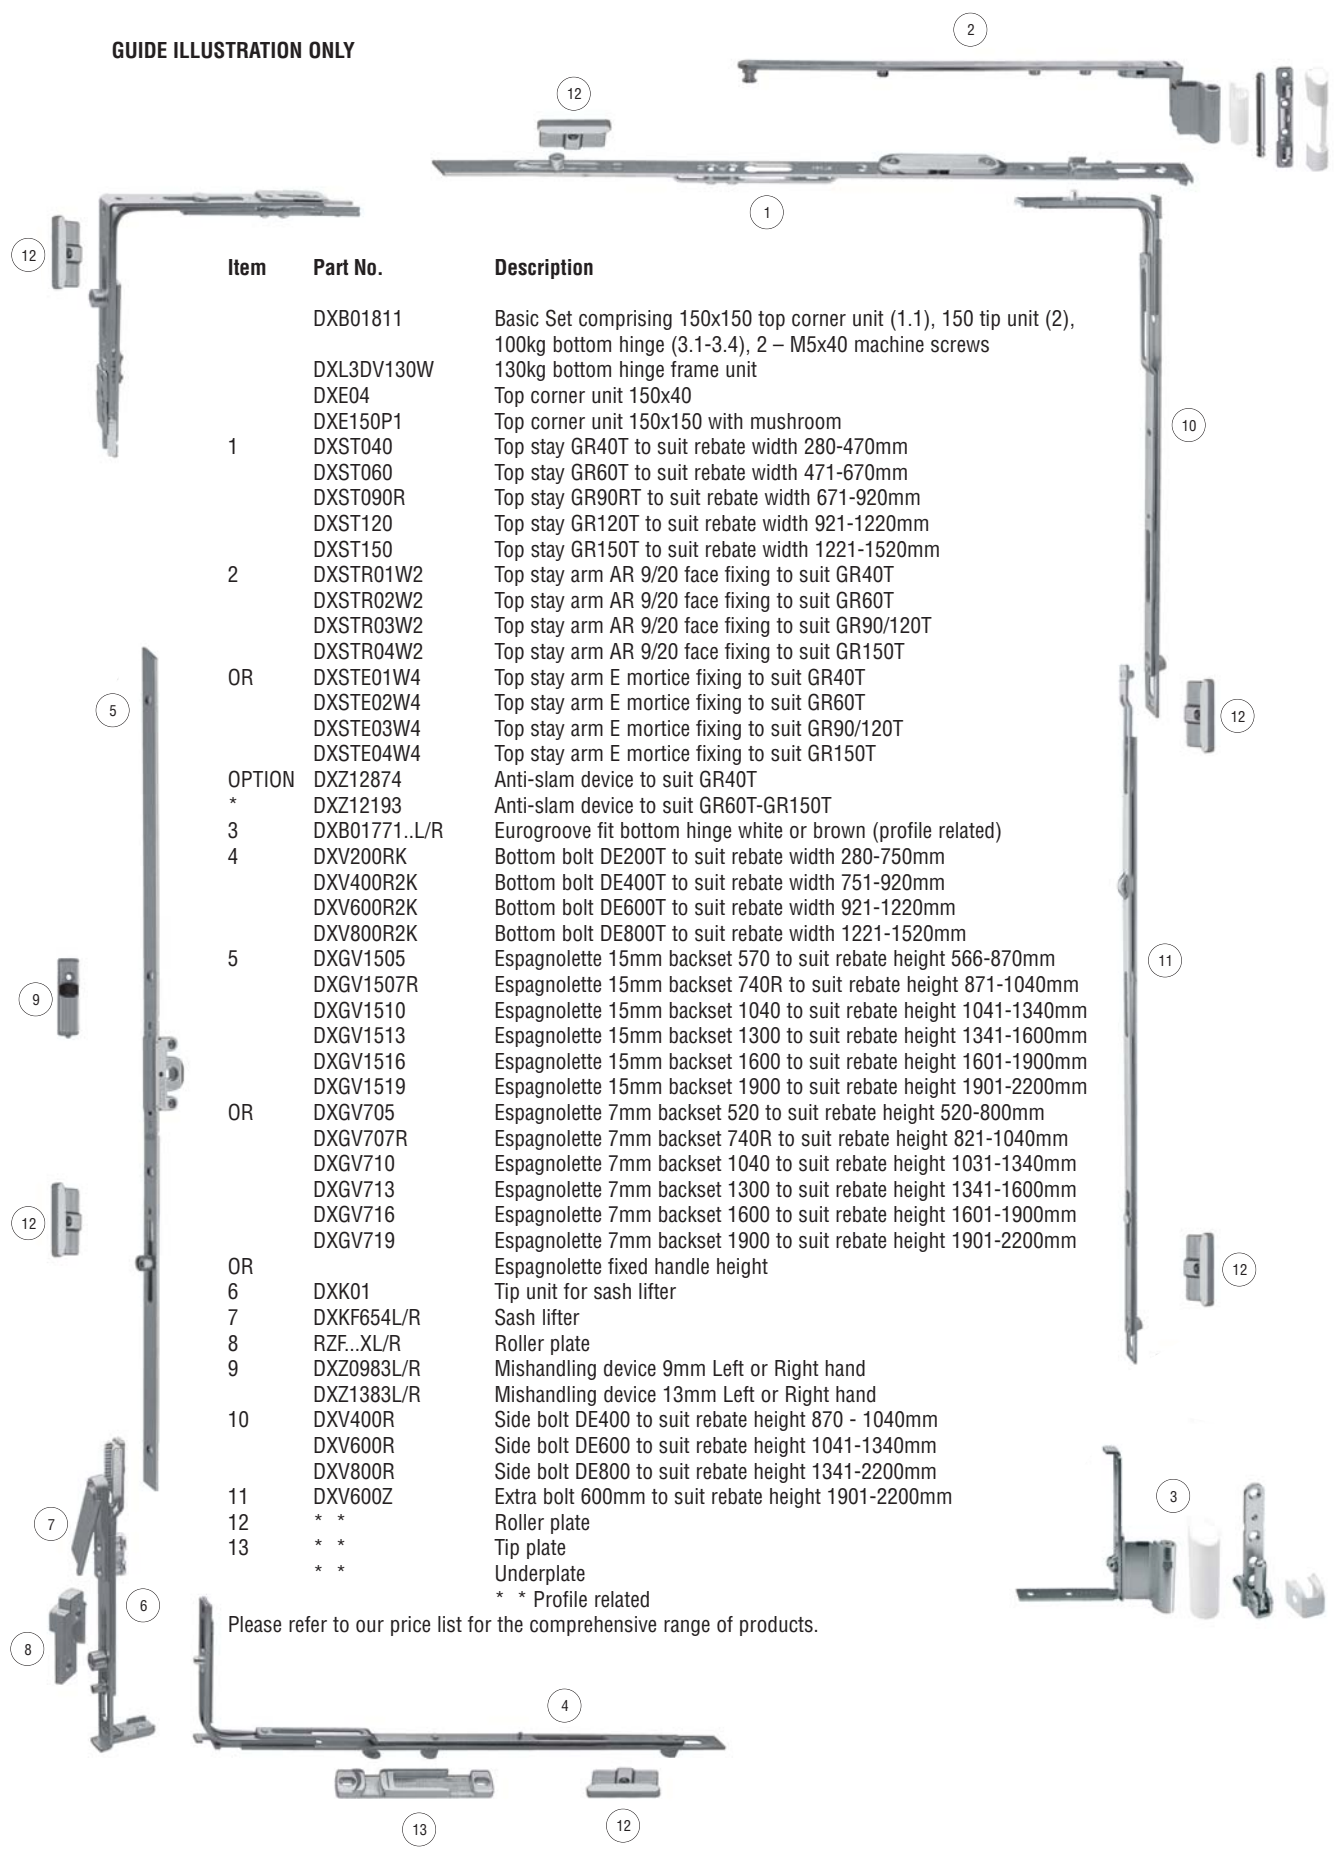

Quality Door and Window Fittings

Tipsafe DK 2003M TILT BEFORE TURN
