

ORTON INLINE & CRANKED

Manufactured with a lever in cast aluminium and die cast zinc backplate for the white finish and lever and backplate in die cast zinc for the brass and chrome finishes, this window handle is designed for use with espagnolette window locks.

The handle is easily operated by pushing the button and moving to a positive position at 90°. The handle latches automatically when closed and for additional security the cylinder can be deadlocked with the key (on the locking version).

The lock cylinder has built-in key retaining device.

Spindle 7mm. Fixing centres 43mm. Fixing lugs 10mm.

Spindle lengths: 16mm, 25mm, 30mm and 43mm.

Finishes: White, Polished Brass and Polished Chrome.
