ENSIGN FLAG HINGE

D5 0907 Product by Groupco

Ensign Flag Hinge

The zinc cast adjustable ENSIGN flag hinge is available in one body size with two frame/sash heights.

- 14 to cover frame/sash upstand 12-19mm
- 21 to cover frame/sash upstand 19-26mm

Hinge size 14 will be set nominally at 14 and can be adjusted from 12-16 and increased to 19 by the addition of one or all of the 1mm packer and 2 No. 1mm shims which are included in the box.

Hinge size 21 will be set nominally at 21 and can be adjusted from 19-23 and increased to 26 by the addition of one or all of the 1mm packer and 2 No. 1mm shims which are included in the box.

Unique features of this hinge are the offset support lugs and lower fixing position on the frame part which offers improved stability in use.

- Non-handed
- Lateral adj +5/-5mm
- Closing pressure +2/-2mm
- Height adj + 5/-1mm

Maximum sash weight: 100kg

Available in Powder Coated White (RAL9016), Brown (RAL8019), Caramel (RAL8003), Gold PVD and Silver PVD (Chrome Effect)
