PANAMA PANIC HARDWARE SETS FOR PVCU DOORS TO EN1125

D6 0907 Product by Fapim

PANAMA PANIC HARDWARE SETS FOR PVCU DOORS TO EN1125

Panama Emergency Exit Hardware has been successfully performance tested to BSEN1125: 1997, BSEN179: 1998 and Fire Tested to BSEN1634 Part 1:2000 where applicable. It has achieved CE Marking status: **3 7 6 1 1 4 2 2 A**

To simplify what is a complicated range we have packaged two complete 3 point locking sets for single doors which can be combined with the addition of a blanking cap set to produce a pair of double doors.

- Boxed set containing all components
- RAL9016 white components with RAL9029 green bar
- Pre-set for external access locking options
- Universal handing
- To suit doors up to 1000mm wide
- Automatic self locking latches to prevent unauthorised external entry
- Dogging device as standard
- Smooth touch latch actions
- Specially designed adjustable keeps for PVCu
